

HYDRO-ARMOR

Hydromechanical plant manufacture

HYDRO ARMOR CRANES

RELIABLE

- Extremely strong sand-blasted/galvanised structures.
- Joints on very amply sized anti-friction rings.
- Special marine-treated ram struts.
- Proportional distributors permitting several simultaneous movements and also perfect flow metering for each function.

SAFE

- Continuous 360° orientation with no dead point.
- High turning torque, permitting manoeuvres under full load even in list.
- Square (or circular) bed ensuring excellent load distribution on the vessel's keelson.

ADAPTABLE

- Operating station mounted revolving on the turret or supplied separately to be better positioned on the vessel.
- Possibility of proportional remote control.
- Possibility of acceptance before delivery.
- Standard can be modified to meet specific requirements of use.

RANGE

- 3 to 60 ton/meter.
- Homologated BV NI 184 machines

Hydro Armor
Marine Equipment
Built and proven for
over 42 Years
Worldwide

Equipment designed and built in France

WTSV Technologies is the proud distributor of "HYDRO ARMOR" Products in México and Speedy Marine Supply LLC representative.

The brand "HYDRO ARMOR" offers the best propulsion solutions in the market.

Come with us, we have the a solution for you.
